## NEWS IN THE VICINAGE.

Revenue collections at Danville, for November, were the largest of the year, \$245,181.52.

Fred Handman, formerly of Junction City, shot and killed himself at Washington Court House, O.

Miss Laura Clay, of Richmond, was elected president of the Kentucky Equal Rights Association.

W. P. Edwards, who disappeared from Middlesboro, causing fears of suicide, has turned up in Kansas.

Mr. S. L. Gray, proprietor of one of the largest livery stables in Lebanon, is dead. He was one of Morgan's men.

A lamp exploded at a school entertainment near Corbin and a number of people were hurt in the panic caused by it.

There are four murder cases and 30 divorce suits on the docket of the Madison circuit court, which began yesterday.

Marion has leased and freed the 874 miles of pike in that county at a cost of \$4,300.25 a year, payable out of the levy of 1899.

The December Munsey's Magazine has a short story entitled "A Question of Identity," written by Miss Neva Williams, of Harrodsburg.

Gov. Bradley refused to pardon Wallace Steele, of Casey county, convicted of carrying concealed deadly weapons, and George Smith, of Adair county, breaking jail.

H. F. Hillenmeyer, the Lexington nurseryman, has presented Danville with a car load of shade and ornamental trees and the Q. & C. will deliver them freight free.

Wm. Williams, colored, shot and fatally injured Mark Bowler at a dance at Lawrenceburg Saturday night. No reason is assigned for the shooting. Williams is still at large.

The electric lights have been turned on at Middlesboro again after a total darkness of two months. The differences between the light company and the council have been patched up.

Mrs. J. C. McKee, one of the best women in Laurel county, died last week after a protracted illness. Her husband, who is heart-broken, pays a beautiful tribute to her in the London Echo.

Spencer Moore, a brakeman on the Queen & Crescent road, while coupling cars, at Junction City, was caught between them and dragged some distance, the lower limbs being terribly mangled. He lived but a few minutes.

Gov. Bradley issued a requisition on the governor of Tennessee for Artie Markham, wanted in Whitley county on a charge of malicious shooting. He shot Sampson Bolton in a general fight at Jellico on Nov. 24, seriously injuring him.

G. T. Helm, chief of police, and Mayor J. B. Fisher say in the Somerset Paragon that they will give \$50 reward for each and every dive in Danville to any reputable person, who will point them out and prove that whiskey is sold in them. This is in answer to the statement that there are 26 blind tigers there.

The saloonists sprang a surprise on the temperance people at Richmond, by going before the city council and having their licenses, which had nearly expired, cancelled and issued for a year. The "drys" say the effect of the council's action will undoubtedly be to carry the election for local option. Its action is generally condemned.

An attachment suit was filed in the Fayette circuit court against Col. Jack Chinn, to satisfy a judgment against him for \$4,250 given by the Mercer county court in favor of Bettie L. Crawford, in 1894. In her petition she says the sheriff, of Mercer county, reported he could find no property belonging to Chinn and the judgment was never satisfied.

LANCASTER.—Mrs. George H. Bruce and G. Howard Bruce, of Danville, visited here last week. Mrs. Bettie Embury, of Louisville, is the guest of Mrs. M. D. Hughes. Miss Florence Harris is back from a visit to Miss Cash, of Turnersville. Dr. and Mrs. Donald McDonald are visiting Squire and Mrs. W. H. Kinnaid.

Mrs. Mattie P. Hoor, aged 92, died in Garrard.

Porter Wearren, for killing Grant Leavell, colored, at Lancaster, was acquitted.

Charles Mehan was seriously injured by falling from the top of a barn at Hyattsville.

The trial of Wren, who shot at a gatekeeper, who surprised him as he was cutting the pole down, was set for Monday.

The jury, at Lancaster, in the case against William McCoy, charged with murder, failed to agree. Five were for a life sentence, the others being in favor of the death penalty. McCoy killed his father-in-law, David Whitehead, in 1889, with an ax. He escaped and was a fugitive from justice until last June, when he was captured in Spencer county.

The saddest words of tongue or pen—"I am going to pay, but I don't know when."

## MATRIMONIAL MATTERS.

Eld. E. V. Spicer, of Selma, Ala., and Miss Catherine Shumate, of Danville, are shortly to wed.

William F. Anus and Miss Samantha Foley, popular young people, were married at Barbourville last week.

Robert Powell, of Crittenden City, O., attempted suicide when he heard his wife had given birth to triplets.

O. J. Johnson, 19, a son of J. M. Johnson, of Kingsville, and Mrs. Stella Stephenson, 21, will be united in marriage today.

Robert Wilmore, of Bloomington, Ill., assisted Miss Rosa White, of Peoria, Ill., on the train and thereby met her. Three days later they were married.

An Ohio couple, who 40 years ago, began plans for their wedding, have just been married at Oswego, Kan., and gone to the groom's home at Noble, Ill., to make their home.

Mrs. Zoonie Bartlett Lindsay, of Todd county, who ran off and married another man the day set for her marriage to one that had proved untrue, committed suicide by taking morphine.

Miss Lucy Mills, a society leader of Cadiz, has filed suit in the Trigg circuit court against Joseph Lancaster, asking \$5,000 damages for his failure to keep his promise of marriage.

There are exceptions to nearly all rules and here's one that knocks out a Biblical assertion. A fellow named Wrath asked a girl to marry him and she gave him a soft answer, but it failed to turn away Wrath.

Miss Kathryn Lewis, the beautiful Defiance, O., girl, who visited Mrs. W. H. Shanks last summer and ran a number of young men crazy, was married last week to a millionaire, who gets a greater treasure than any amount of money can make.

Unless a change takes place in the condition of Ephraim Keigwin, the "Little Squire," of Jeffersonville, who has joined the destinies of 9,000 couples, most of them cloners from Kentucky, death will end the 67 years of his life, most of which have been spent in the Hoosier Gracia Green.

Mrs. Emily Bristow was granted a divorce from Frank L. Bristow, at Covington. Mrs. Bristow relinquishes all claims for dowerage, and Prof. Bristow is to pay \$25 per month for the care of his daughter, who will be in custody of her mother. Bristow is the proprietor of Palisades at High Bridge.

A fellow, who had fallen in love with an Indiana maiden through a correspondence obtained through a matrimonial agency, proposed marriage, but the girl doubted his sincerity. To prove it he said he would do anything, when the young woman informed him that if he would secure a white mule and ride it to Greensburg within 48 hours from a given time, the animal not being allowed to move out of a walk, she would become his bride. He was doing the fool business at last accounts.

MISS MARTHA C. BOSLEY, Vice President.

The dollar is indeed almighty. It is the archimedian lever that lifts the ill-bred man into select society and places the ignorant saphead in the United States Senate; it makes presidents of stuffed prophets; governors of intellectual geese; philosophers of fools and gilds infamy of supernatural glory. It wrecks altars of innocence and pollutes the face of the people; breaks the sword of justice and binds the goddess of liberty with chains of gold. It is the lord of the land, the uncrowned king of the commonwealth.—W. C. Brann, late editor of the Iconoclast.

WEAK EYES ARE MADE STRONG.

## POLITICAL POINTS.

Senator Hale, of Maine, will oppose the peace treaty, so far as it relates to the Philippines.

The State of Washington, which had female suffrage as a territory, voted against continuing women as voters, last month.

The republicans have been unable to name one case of fraud under the Goebl election law, even in Louisville.—Franklin Favorite.

The monthly statement of the public debt shows that the debt, less cash in the treasury, was increased over last month by \$16,506,565.

Senator Deboe says that the defeat of republican congressional candidates in this State, has served to impress upon the party leaders the necessity of concerted action.

Gov. Tanner, of Illinois, says that any sheriff who tries to arrest him under the indictments returned against him for the Virden riots will be kicked out of the executive office.

Senator Caffery, of Louisiana, has been selected to lead the opposition in the Senate to the ratification of the treaty which the peace commissioners are now negotiating in Paris.

Crockerism, according to Governor-elect Thomas, of Colorado, is what's ailing the democratic party, and he says the Chicago platform is the only sound-pure expression of democratic doctrine.

The Alabama Legislature passed a resolution to invite President McKinley to be the State's guest on his coming visit, but struck out the preamble commending his wise and patriotic administration.

Senator Deboe has arrived at Washington, and announces that he will vote to ratify the treaty with Spain. Of course he will. But it is dollars to doughnuts he doesn't know what it is or will be.

Among the numerous indictments returned by the grand jury, in connection with the recent riots at Virden, Ill., were three counts against Gov. Tanner, who is charged with "palpable omission of duty and malfeasance in office."

Hon. Maj. W. C. Owens told a Washington interviewer that the democrats will have a walkover, no matter whom they may select to head their ticket next year, for the republicans of Kentucky are hopelessly split and demoralized. Indeed, they are in worse condition today than the democrats were even at the height of their desensations over the silver question.

The St. Louis Globe-Democrat, which is a republican paper, takes this rosy view of the prospects. "The question of the republican nomination in 1900 is settled. The present president will be re-elected. This much of the history of that year is fixed. There are several republican presidential aspirants, but there will be room for some of them four years later. The year 1904 is not far off. The present indications are that 1904 will be as good a year for the republicans as 1900, and even better than 1896 was. Republican aspirants will be patient."

Only two large States in the country will have democratic governors after Jan. 1. These are Missouri and Texas. Texas chose a governor at the recent election; Missouri did not. All the most important States have, or will have after Jan. 1, republican governors—New York, Pennsylvania, Ohio, Illinois, Massachusetts, New Jersey, Indiana, Michigan, California, Kentucky and Wisconsin. These are the States which will have solid republican delegations in the 56th House: Connecticut, Iowa, Maine, Michigan, Minnesota, New Hampshire, Oregon, Rhode Island, South Dakota, Vermont, Washington and Wisconsin.

## A WOMAN'S NO.

O no! I could not wed you. No; But I hope you won't forget I love you as a sister should—

Oh, please, Will, don't go yet. Yes, love you as a sister should, But marry you? Ah! no!

I'm grieved because you should have thought—

—Oh, Will, don't leave me so. Come back, sit down and talk to me; Don't! Don't frown when you go; One can not love just when she would, Though she's a girl, you know.

And I don't think you love me much. I don't, upon my life; But if I really thought you did—

Yes, Will, I'll be your wife. He—Miss Angelina, I love you—

She—But I haven't a penny in the world.

He—Excuse me, you did not allow me to finish. I love you not—

She—So. I only wanted to try you. You see. I have a fortune of £10,000.

He—Yes, but you interrupted me again. I love you not for your money's sake.

She—Well, I'm so glad, for that was only a joke about that £10,000.—Penny.

Is the forerunner to consumption. Dr. Bell's Pine-Fruit-Cure will cure it, and give such strength to the lungs that a cough or a cold will not settle there. Twenty-five cents at Penny's Drug Store.

## DANVILLE.

It is reported that we will have two ice factories in Danville.

The latest report from Miss Nancy Huguey is that her physician considers her out of danger. Her many friends in Danville have been exceedingly anxious about her.

The citizens of Danville are very grateful to H. F. Hillenmeyer, of Lexington, for the generous gift of a car-load of shade and ornamental trees. Our up-to-date mayor, J. B. Fisher, is a man of taste and will place these trees where most needed and will do the greatest good.

The W. C. T. U. declamatory contest was held in the chapel of Caldwell College Thursday evening and medal was won by Miss Jennie Powell of the public school. The other competitors were Bell Engleman and Annie Owens. Cerena Dunn was ill and could not enter the contest as expected.

A very interesting game of foot-ball was played Saturday afternoon between the college boys living at College Home and Breckinridge Hall. The score resulted in a tie 0 to 0. Hargis was hurt very badly, being knocked senseless, but it is thought that he will be better in a day or two.

Rev. D. P. Putman, of Logansport, Ind., occupied the pulpit of the 2nd Presbyterian church Sunday morning and evening. He is the guest of Dr. W. C. Roberts. Services were held at the 1st church Saturday morning and Sunday, the regular communion. Interesting and impressive talks by the pastor Dr. E. M. Green.

Mr. S. V. Rowland is with W. S. Rowland for a few days. The Chase des Fees have reorganized for the winter and gave their first dance Monday evening. Miss Bessie Dunlap has returned from Lexington, but will spend this month with Miss Elizabeth Vandye Cheatham, at Louisville.

Miss Eaton, of Louisville, has returned home. Miss Evelyn Guerrant entertained the "Junior Social Club" Friday evening. Col. and Mrs. McDowell, B. F. Phillips and Mrs. John Huguey are improving. Miss Pattie McDowell has returned from Middlesboro. Miss Lizzie Reed, who is studying in Chicago, is very ill. A. W. Redford, of Texas, is the guest of his brother, J. W. Redford. Miss Nannie Batterton returned with her sister, Mrs. Overalls, to Colorado Springs. Messrs. Scott Gore and Smith Dulin are in Louisville. Graham Price and bride are with Mrs. Alex Dunn. Judge Breckinridge continues very ill.

The railroad commissioner's report shows that the gross earnings of roads operated in this State are largely in excess of 1897. The gross earnings for 1898 are \$18,722,306, and the net earnings, \$5,580,314. The increase is largely due to a revival of business, but partially to the war, which necessitated heavy transportation by the government. During the year 125 persons were killed on the various roads, as against 50 in the year previous. Of these only one was a passenger, 37 railroad employees and 87 are classed as "others." Of the 125 persons killed, 11 met death coupling cars, 15 by jumping on or off moving trains, 26 by lying on tracks, three in wrecks, 17 by falling from trains and five in collisions.

The secretary of the interior in his annual report shows that of a total of 1,356,323,972 acres of public domain, 637,339,422 acres have been appropriated and are now occupied; 139,516,276 acres have been reserved for various purposes, including 40,719,474 acres as permanent forest reserves; 579,368,274 acres still remain unoccupied, of which 262,651,971 acres are unsurveyed. Ninety-four per cent of the unoccupied area is classed as desert lands, and only about 71,000,000 acres are capable of cultivation either by irrigation or under natural rainfall.

A man may lie and a man may guy, and a man may puff and blow—but he can't get trade by sitting in the shade, waiting for business to grow. The United States mint is the only business that can make money without advertising.

Auditor Stone will institute suits against the 40 circuit clerks, who have not paid back to the State the money collected under the act declaring unconstitutional the statute allowing clerks fees of \$5 in felony cases.

The report of the secretary of the interior shows that one-fifth of the entire population of the United States is in debt—the total being 16,225,093.

The court of appeals has extended its term a week.

COUGHED 25 YEARS.

I had for 25 years with a cough, and spent much money with doctors and medicine, but I never got any relief until I used Dr. Bell's Pine-Fruit-Cure. It is a remedy made from the pine fruit, and it has saved my life.—J. J. Smith, Louisville, Ky.

# THE INTERIOR JOURNAL

STANFORD, KY., - DEC. 6, 1898

W. P. WALTON.

THE official returns show that Lincoln county voted nearer up to its strength of 1896 than any county in the district, the democratic loss being 150 and the republican 164. Mercer county shows up worse than any, Gilbert receiving 625 less than Thompson and his opponent 778 less than he got two years ago. Boyle county alone shows a gain in the democratic vote of 1896, the number being 117, while the republican loss there is 439. Shelby county shows up much worse than Madison. In Gilbert's home county he lost 541 votes and his opponent 650. In Madison his loss was 413 and Davison's 655. No room here for working the lying anti-election statement that Gov. McCreary would "throw off" on Gilbert. Neither will anybody say that Thompson "threw off" on him because his county did so badly, any more than it will be said that Gilbert did worse in his own county. A study of the returns shows a mixed up business all around, with only one redeeming point: Davison lost heavily in every county and would have been defeated by a good majority even if Jackson had been retained.

THE vote in the 11th district two years ago was Colson, rep., 22,404; Black, dem., 12,518, and White, ind., 4,587. This year Boreing got 15,706 votes; Tye, dem., 3,319, and the same White 11,244. This shows a tremendous gain for White and indicates that if he will pick his flint and come again next time, he is a dead sure winner. Judge Boreing claims, however, that a comparison of Tye's vote with Black's shows that democrats, not republicans, ran his vote up, and that but few of the latter voted for him. A further comparison of the vote of the two years shows also that Boreing got 6,618 votes less than Colson. White made a contest before the election commissioners, charging all manner of frauds, but it was not taken seriously by them, and Judge Boreing was given the certificate, after holding it up several days.

THAT exponent of a high protective tariff, the Cincinnati Commercial Tribune, at last admits that the consumer pays the tax, a contention always made by the advocates of free trade. After flippantly reciting the fact that war taxes have actually started a factory and given many men labor, it proceeds to say: The saloon keepers couldn't stand beer tax, so they had new glasses made, and this started one Indiana factory in full. The new glasses are exactly after old patterns, but they hold just 10 per cent. less. So the drinker pays the tax, the paper adds, and the glass factory is far behind with its orders. And thus does an organ knock another prop from under the specious arguments for protection.

THE statement that the president of the Illinois humane society has declared in favor of a re-establishment of the whipping post as a punishment for a certain class of criminals, causes the Louisville Times to recall that this was a very lively question in Kentucky about 20 years ago, and it was the casting vote of John C. Underwood, then lieutenant governor, that defeated the measure. It was the last too of Mr. Underwood in political life, we are glad to add.

COL. W. C. P. BRECKINRIDGE, who has been dead for several years, at least politically, arose from the tomb to say that free silver is likewise dead, but the leaders don't know it, consequently they will nominate Bryan again and he will be badly beaten, as he deserves to be. Then the democratic party will come to its senses, and begin a new era. After saying which the sage once more gathered his grave clothes around him and laid down to dream again.

THE Hon. Charles J. Bronston doubtless feels very proud of himself, after reading the certificate of good character given him in the republican Cincinnati Commercial Tribune by some penny-a-liner. Flattery from such source will not be regarded as praise by democrats, who in times past, have thought Mr. Bronston the embodiment of democracy.

THE anti-venomous serum, which a Pasteur Institute doctor is said to have discovered as a sure cure for snake bite, may do for some folks, but here in Kentucky we will continue to use a more pleasant and potent remedy, which is fire tried and time tested and has never been known to fail.

WITH two of its U. S. Senators, one from Delaware, the other from Pennsylvania, under indictment for felonies and the governor of Illinois indicted for malfeasance in office, the republican party seems destined to hold its next convention in the penitentiary.

JUSTICE has always been represented as blind, but it rarely is. Over in Indiana, however, they have a blind justice, one elected in Boone county being entirely sightless, and it is to be hoped that he will hold the scales with an even hand.

THE committees have sent out neatly engraved invitations to the reception and celebration of Kentucky's welcome to the 1st Regiment on its return to Louisville from Porto Rico. The program includes a general welcome to be extended to the troops on the first day and the concert at the court house in the evening of that day; on the second day the grand military parade in the morning, to be followed by a reception and lunch tendered to visiting municipal officials, the representatives of commercial bodies, and the representatives of the press, at Music Hall at 2 o'clock P. M., and by appropriate exercises at the Auditorium in the evening, and the informal events of the third day, a possible dress parade and review of the First Regiment, Kentucky Volunteers, concluding with a promenade concert by two splendid military bands at the Auditorium, beginning at 8 o'clock P. M. The dates named are Dec. 6-8, but they will be changed as the departure of the regiment from Porto Rico has been delayed.

THE election commissioners gave the certificate of election to Congressman Pugh in the 9th, on the first returns, which showed that he had 10 majority. As we said before this was the only proper course. Contests for election should be made before not after the vote has been taken. After the people have spoken, their edict should be obeyed and not be set aside because some idiotic election officers shut up shop and went to dinner. Furthermore, the democrats of the 9th district do not deserve a congressman. Their apathy when they had so good a chance to elect one is both reprehensible and unpardonable. Williams' lawyer says he will take the contest to Congress, which would be as foolish as it would be unavailing. The republican majority in the next Congress is so slim that democrats, with ten times as much right as Williams, will stand little show to get justice.

GEN. ALGER's report as secretary of war, makes him appear the whole thing and those who did the fighting but very small means to the end. It gives many of the telegrams and replies showing how he snubbed Miles and turned his recommendations down. The people do not care so much about that now, but they are interested in this estimate of the cost of the war: The expenditures for the fiscal year ended June 30, last, were \$62,534,784, and the estimate for the next fiscal year, beginning July 1, 1899, is \$195,250,377. Of this great estimate the sum of \$55,430,909, is charged to the pay of the army. The estimate of the extraordinary appropriations required for the six months ending June 30, 1899, are \$60,177,539 and the estimate for that period, combined with those for the next fiscal year, reach a total of \$255,427,918.

THE president's message delivered to Congress yesterday relates principally to the war and its resulting problems, though no fixed line of policy is laid down as to the new territory. It recommends an increase of the army and navy, touches mildly on tariff reform and the finances and gives the usual space to revenues and other regular topics. It is very long, as only wise men are able to express themselves clearly in a brief manner.

PICTURES of Patti called forth by her approaching marriage to a Swedish baron show that the dear old girl blooms with perennial freshness, although she was married first before women now for many years mothers themselves were born. Age seems to be unable to wither nor custom stale her infinite variety.

THE Courier-Journal had 105 columns of advertising Sunday and the paper was as big as all out doors. It will issue its Christmas number next Sunday, when it will break all records in amount of advertising and good reading matter.

THE monthly change in the management of the Middlesboro Herald retires Dorch Campbell and makes Griffith & Ratcliffe editors and proprietors. It is to be hoped that they will not continue the thumb paper shape for their paper, so prevalent in the mountains.

AND John D. White will contest before Congress for the seat Judge Boreing has nailed down. Johnis must be hard up and anxious to recuperate with the \$2,500 unjustly allowed contestants of congressional seats.

AN Uncle Tom's Cabin Co. is preparing to invade Port Rico. No wonder the Legion boys are impatient to come home.

THE court of appeals decided that a sheriff is entitled to 10 per cent. on the first \$5,000 of all the county taxes collected and not 10 per cent. of the first \$5,000 in each separate fund collected for the county.

Mr. Day's advice to the State department Sunday held out the hope of an early conclusion of the negotiations at Paris. The two commissions held separate sessions Sunday.

At many points on the New Jersey coast the tide rose during the storm Sunday to the highest point reached in years.

Bradstreet's weekly review of trade says: "The business world enters on the closing month of the year with so many favorable and so few depressing features in sight as to leave little doubt that the year 1898, as a whole, must hereafter furnish the basis for estimates when comparisons of large business are to be made."

The ice in the Missouri river at Chamberlain, S. D., is of sufficient thickness to permit the crossing with safety of heavy wagons and teams. This is the earliest the river has closed there for many years, and completely shatters the predictions of old steamboatmen, who were confident up to a week or two ago that navigation of the river could be carried on without interference by ice until about Christmas time.

At Glasgow, Robert Brown was given the death sentence Saturday for a crime committed about four weeks ago, when he attempted to kill several members of his wife's family. He killed his father-in-law and wounded his mother-in-law, her son and granddaughter. After the shooting he took refuge in a barn and refused to surrender until an attempt was made to set the barn on fire. It was proven that Brown had been criminally intimate with his wife's 13-year-old sister, and it was because of remonstrance from his father-in-law that he attempted the extermination of the family. All the parties involved in the bloody affair formerly resided in Indiana.

The following is the general rule for measuring corn. Two cubic feet of good, sound dry corn in the ear will make a bushel of shelled corn. To get the quantity of shelled corn in a box of corn in the ear, measure the length, breadth and height of the box inside of the rail, multiply the length by the breadth and the product by the height, then divide the product by two, and you have the number of bushels of shelled corn in the box.

BETTER PRICE.—Judge J. W. Alcorn, who attended the sale of the land of Wm. Lucas at Hustonville, 86 acres, tells us that it was bought by Mrs. Wm. Cloyd and J. C. Cloyd at \$52.82, more than a dollar an acre higher than it sold a month ago.

FOR LIFE.—That's the verdict that a Leslie county jury found against Henry Pennington for murder. He took an appeal, of course, and was yesterday returned to his old quarters here, where he spent a long time for safekeeping prior to his trial.

SUNDAY night was a typical one for a railroad accident and it didn't pass without one on this division. A draw-head pulled out of a car on Freight 35 near New Haven and caused three cars to be derailed, delaying all trains. No. 25 yesterday not reaching here till 4 A. M.

TO BE CONDEMNED.—The Boyle fiscal court determined to issue 4 per cent bonds to the amount of \$45,000 for the purpose of paying for the turnpikes. They will be sold to the highest bidder, either publicly or by sealed proposals. The Stanford pike has not been bought and condemnation proceedings will be instituted at once.—Advocate.

STOLE PANTS.—Marshal Arthur Jones, of Hustonville, came here Saturday and with Marshal Newland's assistance arrested Dick Bentley, a Danville Negro, who stole a couple of pairs of pants from the front of James Frye's store in Hustonville. IN HOC.—A Stanford Negro, named Will Gill, came over and proceeded to teach the Lancaster coons the latest and most improved way of running a blind tiger. Not having the requisite amount in cash, Gill will spend 125 days astride a Lancaster rock pile ere he again listens to the rippling waters of St. Asaph Creek.—Record.

HON. M. F. NORTH, who was here Saturday, was asked if he would run for the Legislature again. He replied that many had asked him the same question and others had urged him to announce himself, and that he had taken the position that if the party wanted him it would say so, in which event he would give the matter mature deliberation. He doesn't think the office, though a most important one, is worth a scramble, and only in such event would he consider a candidacy for it. Mr. North made a very excellent member and is better fitted now than before to do effective work.

After raining all night Saturday, the wind blew and the snow flew Sunday till the most disagreeable day of the season was experienced. AN entertainment for the benefit of the Stanford High School will be given by Prof. W. D. Tardif and pupils at Walton's Opera House, Dec. 30, to consist of music, drills, recitations, &c. As the proceeds are to go to the completion of the building, it is earnestly hoped a large crowd will attend. Up to this time, this is the only engagement for Christmas week at the Opera House.

WILL NOT CONTRACT THE BOUNDARY.—The city council at its regular meeting decided not to curtail the town boundary, which is wise and satisfactory. It also voted to accept 25c on the \$100 a year for the four years in litigation on town lands within the city limits, they hereafter to pay the regular town rate, but to be assessed lower than they have been. This seems to be a sensible solution of the vexed question and it is hoped that it will settle it.

AT MANILA.—Judge T. L. Shelton is in receipt of a letter from Thomas K. Salter, who is at Manila with Co. A, Battalion of Engineers, under date of Oct. 25. Mr. Salter lived with W. H. Traylor a number of years and has many relatives in this county. He is not at all pleased with the Philippines, as far as the city of Manila is concerned, as the following from his letter shows: "This is the most disagreeable place to live you ever saw. You can't talk to any one and the sun is so hot in the heat of the day you don't dare to go in it. Everything is as ancient as Noah's Ark. The city is surrounded by a wall 30 feet high, 18 feet thick and not a bit of air can pass through the city. Outside of the soldiers there are 25,000 people and less than 300 can half way speak English. They speak every language you ever heard of. There are churches here that were built in 1400; one near where we are quartered is 400 years old and covers over an acre of ground. There are no schools, but those who can afford to do so send their children to Hong Kong." Mr. S. is anxious to hear from his friends here and a letter addressed care of the above company will reach him.

The controller states that up to Oct. 31, 1898, there have been organized 5,151 National banks, 23 per cent. of which have been placed in voluntary liquidation and less than 7 per cent. in the charge of receivers. At the close of the year there were in active operation 3,598 associations, with authorized capital stock of \$624,552,195. The outstanding circulating notes of the banks on that date amounted to \$239,546,281, of which \$210,045,456 were secured by bonds, and the remainder—\$29,500,825—by lawful money on deposit with the treasurer of the United States for the account of liquidating and insolvent banks and those reducing circulation. During the year there were organized 56 banks with total capital stock of \$9,665,000.

It is estimated that since the days of the Trojan war no fewer than 1,200,000 men have been sacrificed on the altar of the god of war. If it were possible to gather together these millions of war's victims into one ghastly army, they would form a column, 27 abreast, long enough to clasp the earth at the equator, with a residue of 10 similar columns stretching from London across Europe to Naples. A calculation as careful as is possible places the total cost of war during the last 3,000 years at the appalling sum of \$600,000,000,000.

Fire which raged for hours Sunday night among some of the highest buildings in New York destroyed property worth a million dollars. The big structure of Rogers, Peet & Co., at Broadway and Chambers street, was completely gutted, at a loss of \$350,000, while heavy losses were sustained by the Home Life Insurance company and the Postal Telegraph company, with their scores of tenants.
